

Here at the *CEJ* we understand how difficult it will be to wait until summer to read all of the great books reviewed in this issue. Therefore, we have provided a complimentary book wrap that, when wrapped around your book of choice, will allow you to enjoy your reading time during the school day while leading your colleagues and administrators to believe that you are taking the initiative to become a better teacher.

(You can use your copy machine expertise to enlarge this cover to fit your book of choice.)
